DEPARTMENT OF ECONOMICS

ACTIVITY REPORT ON RECYLING WAST PLASTIC AND MAKING CRAFTS

Recycling Waste Plastic and Making Crafts

Academic Year: 2025–2026

1. Title of the Activity:

Recycling Waste Plastic and Craft Making

2. Date of the Activity:

(24-12-2025)

3. Organizing Department:

Department of Economics

4. Venue:

(GOVERNMENT DEGREE COLLEGE RAMPACHODAVARAM)

5. Objective of the Activity:

The main objectives of the activity were:

To create awareness about plastic waste management.

To encourage students to adopt eco-friendly practices.

To promote creativity and innovation through reuse of plastic materials.

To educate students on sustainable development and environmental protection.

6. Description of the Activity:

The Department of Economics organized an activity on “Recycling Waste Plastic and Making Crafts” during the academic year 2025–2026. Students actively

participated by collecting waste plastic materials such as bottles, covers, containers, and other recyclable items.

The activity began with a brief awareness session on the harmful effects of plastic pollution and the importance of recycling. Faculty members guided students on how to convert waste plastic into useful and decorative items.

Students created a variety of crafts including:

Flower vases from plastic bottles

Pen stands

Decorative items

Wall hangings

Eco-friendly utility products

The activity was conducted in a collaborative and engaging manner, allowing students to work in groups and showcase their creativity.

7. Number of Participants:

(28 Students Participated)

8. Outcome of the Activity:

Students gained practical knowledge about recycling and waste management.

Awareness about environmental conservation was enhanced.

Creativity and teamwork skills were developed among students.

Students understood the importance of reducing plastic waste in daily life.

9. Feedback:

Participants expressed that the activity was informative, engaging, and useful in developing eco-friendly habits. Many students showed interest in continuing such sustainable practices.

10. Conclusion:

The activity was a great success as it combined environmental awareness with creativity. It helped students understand the significance of recycling waste plastic and encouraged them to contribute towards a cleaner and greener environment.
