Report on

SWACHHTA HI SEVA 2024

Government Degree College, Rampachodavaram Organized by: NSS Unit

Date: [17/09/2024] To [02/10/2024]

Principal: Dr D Chitti Babi **Program Officer**: D. Ravi Kumar,

Introduction

Swachhta Hi Seva 2024 was organized at Government Degree College, Rampachodavaram, with the primary aim of promoting cleanliness and hygiene within the college campus and the surrounding community. The initiative, led by the NSS Unit under the guidance of Program Officer D. Ravi Kumar, Assistant Professor, was designed to create awareness about waste management, the importance of a clean environment, and to encourage active community participation in the spirit of the Swachh Bharat Mission.

Event Proceedings

The event was well-planned and featured a series of activities aimed at fostering a sense of responsibility towards maintaining a clean and healthy environment. The key proceedings of the day included:

Inauguration and Flag Hoisting:

The day began with a formal inauguration which included the hoisting of the national flag, accompanied by a short prayer session. This set an inspiring tone for the cleanliness drive ahead.

Awareness Session:

A detailed session was conducted to educate participants on the significance of maintaining cleanliness. Experts and faculty members discussed effective waste management practices, recycling methods, and the impact of environmental hygiene on public health.

Campus Cleanliness Drive:

NSS volunteers, along with enthusiastic students and faculty, took part in an extensive cleaning drive. The activities involved sweeping, dusting, and waste segregation exercises across the college campus. Special emphasis was placed on cleaning common areas and ensuring proper disposal of waste.

• Community Outreach:

In addition to campus activities, NSS volunteers organized visits to nearby residential areas.

During these visits, volunteers distributed informative pamphlets and engaged with the local community, providing practical tips on maintaining cleanliness at home and in public spaces.

Interactive Session and Pledge:

An interactive session was held where participants shared their experiences and ideas for a cleaner environment. The event concluded with a collective pledge to uphold the values of cleanliness and hygiene in their daily lives.

Participation and Impact

The Swachhta Hi Seva 2024 event saw an overwhelming response from students, faculty members, and local residents. The hands-on approach not only led to a visibly cleaner campus but also instilled a lasting awareness about the importance of a clean and healthy environment. Participants left with a renewed commitment to promoting environmental hygiene, both within their immediate surroundings and in the broader community.

Address by D. Ravi Kumar

In his address, D. Ravi Kumar, Assistant Professor and NSS Program Officer, highlighted the vital role that cleanliness plays in ensuring public health and environmental sustainability. He emphasized that every individual has a responsibility to contribute to the community's well-being. His motivational speech encouraged participants to adopt sustainable practices and to continue their efforts towards a cleaner and greener future.

Conclusion

Swachhta Hi Seva 2024 was a resounding success, reflecting the collective effort and commitment of the Government Degree College, Rampachodavaram community. The event not only enhanced the physical environment of the college campus but also fostered a deeper understanding of environmental responsibility among participants. The proactive measures and community involvement demonstrated during the event promise a lasting impact on local cleanliness and public health.

Acknowledgments

The NSS Unit expresses its sincere gratitude to the college administration, faculty members, students, and local community members for their active participation and unwavering support. Special thanks are extended to D. Ravi Kumar for his exemplary leadership and commitment in organizing this impactful event. Their joint efforts have played a significant role in advancing the cause of environmental cleanliness and public health.
